

Salzkammergut Lakes

Cycling through Salzburg's famous Lake District

What could be more delightful than venturing out on a cycling expedition along the serene lake shores, allowing your spirit to soar in the midst of a breathtaking natural landscape? The cycling tour encompassing the Salzkammergut region and the Lake Trumer Seen area is exquisitely tailored for this very experience. Just a short distance from Salzburg, you'll be embraced by the splendour of a one-of-a-kind natural panorama.

The mild undulating terrain of Salzburg's alpine foothills possesses its own unique charm. En route, you'll traverse through meadows and moorlands, reaching Oberndorf - the famed location linked with the Christmas carol "Silent Night," as well as the historic imperial town of Bad Ischl.

Details about the cycling tour around the 10 Lakes region

The start and finish of the cycling tour are seen from the Trumer. Via Salzburg, Gmunden, Hallstatt and Bad Ischl you will cycle along the ten lakes.

The highlights of the 10 Lakes cycling holiday at a glance

- **Oberndorf:** The birthplace of the Christmas carol "Silent Night". Cycle a few kilometres further to Arnsdorf, where the famous Silent Night Museum is located
- **Schafberg:** Up the mountain with the cog railway, that is the motto at Lake Wolfgang. When you have reached the top, you can be sure of the beautiful panoramic view over the surrounding lake area of the Salzkammergut!
- **Kaiservilla Bad Ischl:** The "Kaiservilla", where Empress Sisi and Emperor Franz Joseph liked to spend the summer months. Tip: Empress Sisi's famous tea house is worth a visit
- **Hangar 7 in Salzburg:** For the racing fanatics and Max Verstappen fans among us, this airport hangar is a collection of historic planes, helicopters and Formula 1 race cars and serves as the home base for the Flying Bulls, a private aircraft fleet based in Salzburg
- **Wildkar waterfall in Seeham:** On top of the Teufelgraben with a magnificent view over the Obertrummersee, a beautiful walk starts in the nature park that leads along the river Teufelsgrabenbach to the Wildkar waterfall, a natural monument of no less than 5 m high and 20 m wide
